Notice to Applicant

Allowable Subject Matter

2. Claims 60-63, 65, 68-75, 79-82, 84, 87-97, 99, and 102-108 are allowed. The following is an examiner's statement of reasons for allowance and in light of Applicant's arguments.

The closest prior art of record Peterson et al (6,343,271) discloses electronic creation, submission, adjudication, and payment of health insurance claims.

Reed et al (5,862,325) discloses computer-based communication system and method using metadata defining a control structure.

However, none of the cited prior art discloses/suggests "selecting a second insurance claim step, wherein the second insurance claim processing step comprises at least one of the additional insurance claim processing steps from the table of contents; automatically displaying the second insurance claim processing step on the display device; receiving input regarding the second insurance claim processing step; and automatically adding or deleting one or more steps from the table of contents in

response to the received input from the first or second insurance claim processing step or automatically modifying the sequence of processing steps listed in the table of contents in response to the received input from the first or second insurance claim processing step".

Dependent claims incorporate the limitations of the independent claims and are also allowed for the same reasons given above.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
